

Dillon School District Four Office of Food Services is pleased to announce its participation in the Fresh Fruit & Vegetable Program in all of its elementary schools.

The goals of the Fresh Fruit & Vegetable Program (FFVP) are to create healthier school environments by providing

healthier food choices; expand the variety of fruits and vegetables children experience; increase children's fruit and vegetable consumption and make a difference in children's diets to impact their present and future health.

Dillon School District Four Office of Food Services is pleased to be participating in the FFVP because it provides all elementary school students a healthy and nutritious snack twice a week. The students are receiving fresh fruits and vegetables that they may not necessarily get an opportunity to eat; jicama, mango, pineapple and kiwi just to mention a few of the items served.
